<b>ASPIRATIONAL PHRASE</b>	“The point of good music is to affect the soul”. – <i>Claudio Monteverdi</i>
<b>DESCRIPTION OF THE ACTIVITY</b>	When someone learns to play an instrument, develops a new skill, opens up the opportunity to perform as a soloist or as part of a group and generally enriches life in a way unlike other hobbies. There is a world of magic and emotions going on inside a brain throughout musical tuition while developing attention, concentration, motor skills (like coordination) and mental skills that can be transferred to other areas. Keyboard instruments give us the chance to put together melody, rhythm and harmony in a way no other instrument allows.
