SWIMMING CLUB

TEACHER	Escuela de Natación RPS	AGE GROUP	Pre-Nursery - Year 11
PARTICIPANTS		DAYS	Lunes - Viernes
BRIEF DESCRIPTION	Within the swimming school we will teach 3 aquatic disciplines: swimming, water polo and artistic swimming, all of them mixed. The initial objective is the adaptation to the environment in the initial ages (early years) as the students develop, we will introduce other technical aspects for the day we are ready to compete as a club in sports school competitions. The benefits of these aquatic disciplines are already well known to all, being surely the most complete with respect to other sports. The backbone where the school is sustained is a good teaching of swimming that will complement the disciplines of water polo and artistic swimming in more advanced ages (from Yr4). Unlike swimming, water polo and artistic swimming are team sports that have an added value to communicative and sociable values. On the other hand, water polo works more on speed and strength and artistic swimming combines apneas, gymnastics and dance. i
